

# *RITE OF SPRING - EXTENDED*

## TECHNICAL REQUIREMENTS

The setting of this show is very simple. The following is a general description of the requirements with regard to presentations on tour.

### **The Venue:**

This is an intimate performance that unless something else is agreed, should not be presented for an audience bigger than 400 persons.

### **The Stage:**

Ideally, the show should be played directly on the floor, with the spectators placed frontally on a tribune that can allow everyone to see the entire surface of the stage floor. Alternatively, the show can be presented on a conventional stage. In both cases there must be at least 1 m. of distance between the edge of the stage and the first row of seats.

- Performing area: minimum 10,5 m. wide x 10m deep x 4 m. high.
- Traditional black box
- A grey dance carpet is required. We can bring our own if necessary.
- A black back drop and black side drops, legs, 5 on each side are required.
- It is important that the space can be darkened totally.

**There is no set.**

### **Lighting and Sound**

The lighting equipment consists solely of 7 moving heads.

There is no need for hanging or focusing of lights.

When touring within Europe, the company brings all the necessary light and sound equipment. However it might be an advantage to use the venue's sound system. The sound is played from an i pad so there should be a mini jack connection from the sound board for this.

### **Power supply**

There should be One 32 Amp CEE connection.

Or two 16 Amp three pin CEE connections, one on each side of the stage.

### **Stage Hands**

There is no need for technical assistance during the presentation of the show. But the organizers must put the following personnel at the disposal of the Company:

- 1 English-speaking technician who is familiar with the venue, during setup (light and sound).
- 1 helper at get in/out

### **Setup and break down**

Under normal circumstances the setup must start latest 8 hours before the show's beginning time. Dismantling will take approx. 1 hour.

### **Back stage and catering**

We need to wash costumes after each performance so we need access to a laundry/washing machine.

We require dressing rooms with tables, chairs and mirrors for 7 performers, close to running water, toilet and showers.

Bottled water, fruit and snacks in the restroom or dressing rooms will be much appreciated.

**Duration of the performance:** approx. 1 hour, without break.

32 Amp CEE
